

TEAM PROFILE

JOAO DE MAIO

JOAO DE MAIO

ACCOUNT MANAGER

“

Supporting my clients to achieve their business goals is my number one priority.

”

Joining the SOLOS Glass team in 2019, Joao has quickly become a valued member of the NSW account management team. He thrives on delivering excellent customer service, utilising his extensive technical knowledge and expertise drawn from his experience in both commercial and residential projects.

Joao began his career within the glass processing line, spending several years developing and refining his skills to fully understand the glass production process from end to end. He also worked his way through a bachelor degree in Communication and Sales.

It's his hands-on experience combined with his academic achievements that is key to Joao's superior account management skills.

When he's not out and about working on glass projects, Joao is usually outside amongst nature's elements. A keen water-baby, he's often found hanging off the end of a wake board or skipping his boat across the deep blue. Dropping anchor and relaxing for a spot of fishing is the ultimate way to unwind after a busy week.
